

SNUG

Smart Thermostats

Simple, intuitive heating controls,
loved by installers and homeowners

Cosy homes, made easy

Here at Snug, we're all about making life easier.

That's why we've designed a range of smart, intuitive thermostats for controlling central heating, water and electric underfloor heating, hot-water systems and heated towel rails.

Attractive, simple to use and full of energy-saving, money-saving features, they're all backed by our brilliant Snug support and full product warranty.

Why choose Snug?

Easy to fit & easy to use

For happier projects, all round

Full product warranties

For total peace of mind

Friendly technical advice

For smooth, stress-free projects

Industry-leading, no-quibble support

For award-winning know-how, on tap

Attractive, intuitive controls

For clean, contemporary looks

Energy & money-saving features

For lower bills and a better world

Brilliant features, built in

Right across our Snug thermostat range, we've built in attractive, intuitive, high-quality features that make it easy to control heat, save energy and keep heating costs down.

TFT touch screens

Our state-of-the-art Snug touch screens work just like a smart phone, for easier navigation, more flexibility, simpler programming and a smoother, slicker experience than standard LCD.

Smart capabilities

Using smart technology and our Optimum Start function, our thermostats learn how long it takes to reach the chosen temperature and switch on when they need to, saving energy – and money.

The SnugStat App

Our three Wi-Fi enabled thermostats come with our free SnugStat App for iOS and Android, perfect for managing heating on the go – controlling a whole house or even multiple properties. Plus, GeoSmart technology turns the heating down when you go out, and up when you return, for a constantly cosy home, with maximum energy and cost efficiency.

Snug smart thermostats

Snug Touchscreen Controller

Perfect for any project, with large dimmable screen, self-learning for optimum comfort and efficiency, two remote probes, holiday mode and temperature limiter for wood and laminate floors.

SnugStat Wi-Fi Thermostat

All the functions of our touchscreen thermostat, plus instant control from anywhere, through our app. View and adjust live temperatures remotely, set different live temperatures in different rooms, zones or properties, and use GeoSmart for heat when you're home and savings when you're out.

Snug Touchscreen 2 Channel Controller

Get all the intuitive features of our bestselling touchscreen controller – and control two heat sources from just one thermostat. Use the temperature + timer option for your central or underfloor heating and the timer only option for hot water or towel rails.

SnugStat Duo Wi-Fi Thermostat

All the benefits of our touchscreen, Wi-Fi and two-channel controllers, rolled into one attractive, easy-to-use thermostat. Instant, multi-zone control from anywhere, GeoSmart technology, and the ability to control two heat sources – central or underfloor heating, plus hot water or towel rails.

SnugStat RF Wireless Wi-Fi Thermostat

Made to make retro-fitting a heating system a whole lot easier, this flexible, efficient controller gives you the same benefits as our SnugStat Wi-Fi Thermostat, without the need for hard wiring.

Fast, friendly support from our expert team

Whether you're installing for a client or working on your own home, we'll help you create a cosy, comfy space in no time.

So, if you'd like some fast, friendly advice on the right thermostat for your project, just get in touch. We're an experienced, award-winning technical team, here to support you through installation and beyond.
